Travel / Zone Fee Distance: 28 miles. Zone based pricing applies.	+ \$75
Subtotal	\$574
Total Estimate	\$574

Notes from "The General":

"The estimated volume for the construction debris (boards, rebar, small amount of concrete, broken cabinet) is approximately a 1/2 truck, leading to a base cost of \$399. Travel from San Francisco, CA (HQ) to Moraga, CA (94556) is estimated at 28 miles, placing it in the 16-30 mile travel zone which incurs a \$75 flat travel fee. A surcharge of \$100 is applied for Construction Debris (Dense). No single item was identified as exceeding 200 lbs, so the heavy item fee is

\$0. The subtotal and total are calculated as \$399 (volume) + \$100 (construction debris surcharge) + \$75 (travel fee) + \$0 (heavy item fee) = \$574."
